## Chinook's Sports Day, June 16

### Breezelets

The Russians are now hitched up with the British, and the march to Bagdad will be under way in a short time.

And they will soon bag poor old dad.

One of the mysteries of modern warfare is the number of men slaughtered and wounded in seeking to capture or defend points of absolutely no strategical value.

Verdun is pretty well shot to pieces, according to Berlin, but it seems to be considered worth taking, nevertheless.

When we consider the state of Saloniki today, we feel that the effect of St. Paul's Epistles to the Thessalonians was not as permanent as it should have been.

The German chancellor says there will be a new Belgium at the close of the war. And the British chancellor says there will be a new Germany.

One illusion about the French has been dispelled by the war. The Crown Prince had a birthday and the defenders of Verdun weren't courteous enough to hand over the fortresses as a little remembrance.

You may not be in favor of the day-light-saving idea because it means getting up an hour earlier, but think how nice it would be in the fall when the change is made back again and you could stay abed an hour longer.

After what they have gone through at Verdun, it is believed that most of the French soldiers would be able to survive even an attack of German measles.

"You can always tell a pin-headed man," observed an exchange.

Our experience has been that you can't tell a pin-headed man anything.

The young man or woman who has been made accustomed to get whatever he or she wants when they want it have a lot of disappointments coming to them.

You, perhaps, may have noticed that almost every man thinks his train of thought should have the right of way.

### R. M. Sounding Creek

#### \$600.00 TO BE SPENT ON ROADS IN EACH DIVISION

The above Council met at Youngstown on Wednesday, May 17th.

Present : Reeve Price, Councillors Bowman, Miller, Anderson, Gibbs, and Dobson.

Minutes adopted.

Anderson, That the Secretary write the Department regarding the taxes against the e hf of sec. 16-29-9.

Anderson, that minute No. 42, regarding the taxes of R. Reinbold be rescinded and the matter be left over until taxes are collected.

Gibbs, that the sum of \$200 be allowed division 2 for road work over and above their percentage this year, to be spent on the six miles of road immediately south of Youngstown.

Price, that Councillor Gibbs and Anderson be appointed a committee to negotiate the purchase of a road diversion on the s.w. qr 15-29-9 around the slough on the road running north and south immediately west of that quarter.

Anderson, that the council apply to the Dept. of Public Works to place a pile bridge on the road north of Youngstown between sections 27 and 28 30-9.

Price, that the communication from the R. M. of Collingwood regarding township line between 28 and 29, be tabled.

Dobson, that the Reeve and Secretary be authorized to pay J. E. Martin of Chinook the sum of \$160 upon the production of title to road allowance across the s. w. qr of 4-29-7.

Price, that the previous minute No. 68 be rescinded and that Messrs. Bowman and Miller be appointed a committee to investigate this matter and report.

Anderson, that Mr. Miller be on delegation of Municipalities to interview G.T.P. railway concerning the extension of the Big-Calgary line in 1917, this municipality guaranteeing his expenses, with the exception of railway fare, providing, however, that if only two delegates are sent this municipality will pay share of reasonable expenses pro rata.

Dobson, that H. J. Loree be appointed inspector for divisions 1 and 3.

Gibbs, that P. A. Davie be appointed weed inspector for div. 2. (Continued on page 8)

### Chinook Breezes

Cheer up. A disagreeable day is soon forgotten when a pleasant one comes.

Mr. R. N. Mangles, Sec-treas. of R. M. of Sounding Creek, was in town this week.

Mr. Bray and two daughters of Oyen spent a few days this week with his son here.

There were no 24th celebrations around here this year on account of weather conditions.

Mrs. Pinkerton, wife of Principal Pinkerton, arrived in Chinook on Sunday morning for a week or so.

Mr. H. C. Brigginsshaw has been confined to his room the past week through a very heavy cold which settled on his chest.

**Give It Up!**  
Who can estimate the value of the four day's rain of this week to this district.

**Was Some Excitement**  
To liven things up a bit on the 24th there was a run-away team in town—damage a badly-used-up wagon and contents.

**To the Accompaniment of That Back-Ache Gag!**

The lawn mower will soon be heard in the land—and also in the morning. The grass has been growing if nothing else has.

**And It Was a Hummer, Too**

After threatening for some ten days early Monday rain finally got started and it came down in great quantities for four days.

**Prevention Better than a Cure**

The only sensible way to make war on the fly is to destroy its breeding places, and now is the time to do it.

**On the Last Lap**

Thursday of next week June 1, start the last month's lap of the present liquor license system in Alberta.

**Help the Good Work Along**

Chinook Women's Institute will meet on Saturday afternoon of next week, June 3rd, in the hall. Come early in order to sew for the Red Cross.

**Will Reside in Chinook**

Mrs. R. S. Woodruff and family from Youngstown, arrived in Chinook on Saturday and will reside in the house just vacated by W. Leadbetter on Second Ave West.

### District Meeting

#### HELD AT CHINOOK

The annual meeting of this district of the Methodist church was held in Chinook on Tuesday, when the following pastors and lay delegates were present : Rev. A. Barner, supt of home missions ; Revs. C. Eason, Chinook ; D. Simpson, Cereal ; Steele, Oyen ; Nightingale, Youngstown ; Longmire, Craigmyre ; and Lorne T. Sarles, a probationer. Lay delegates : Mr. Bray, Oyen ; Mr. H. Kinch, Chinook ; Mr. E. Church, Youngstown ; Mr. Sarles, Cereal ; and Mr. Sillington, Craigmyre. Messrs. Kinch and Church were appointed delegates to conference which meets at Lethbridge next week. The reports from the circuits show the district to be in a very flourishing condition and the finances ahead of previous years. Chinook had increased its giving between \$100.00 and \$200.00.

### Dr. Patterson

#### PASSES SUDDENLY AWAY

A familiar figure in these parts has been removed by death, in the person of the late Dr. Patterson, who resided 6 miles east Chinook. From information to hand we learn that deceased had been suffering from heart trouble for some time, and a short time before his death he had consulted specialist regarding his condition. Shortly after returning home, a week or two ago the attacks of the fatal malady were more frequent and severe, and he passed suddenly away last week end. The deceased will be missed by a wide circle of friends, who will greatly regret his sudden departure. He leaves a widow and two children to mourn his loss, who have the sympathy of all in their sorrow.

### A SHORT POEM

Here is a short spring poem which has met with approval in many a paper, although spring poems are not considered particularly good sellers :

Little beds of flowers,  
Little cans of paint,  
Makes the home attractive  
Out of them that ain't."

Have you ever noticed how short of strawberries a strawberry shortcake is ?

### Departmental Exams.

#### WILL BE HELD IN CHINOOK

The list of centres where the coming departmental examinations for 1916, for grades viii, ix, x, xi and xii has been published by the department. Chinook is among these centres. Pupils from Youngstown and other near places will come to Chinook to write. Examinations for grade viii will commence June 19th to 22nd, inclusive ; grade ix, June 23rd to 23rd, inclusive ; grade x, June 19th to 26th, inclusive.

### Cars on Goose Lake Line

#### CHINOOK BEING BETTER SERVED

Information has been given out to the effect that the Canadian Northern Railway company reports the total amount of grain in store on the Gravelbourg-Avonlea branch is 790,000 bushels. The C. N. R. has arranged, at the instance of Board of Rly Commissioners, to place twenty cars a day on this line will be cleared up in 35 days.

Regarding the Goose Lake line, the Board of Railway Commissioners have arranged with the Canadian Northern Railway company for an average daily movement of 130 out of this district. Some days doubtless, this movement will not be reached, and other days it should be exceeded, but the understanding between the board of railway commissioners and the Canadian Northern Railway is to the effect that grain is to be got out of this district at that rate. It is expected that the Goose Lake line will be cleared up by August 1.

Since the Commissioners have so vigorously taken up this question : the supply of cars at Chinook have been more plentiful. On Monday fifteen cars were loaded here, and, we believe, the same proportion, each day since. There is still a very large surplus of grain around here to be shipped, which will require some hundreds of cars yet before all is out.

Thoughts are the quickest and the longest and the saddest things in life.

Whenever the wife asks the husband to beat the carpet he gets right up and "beats it."

### Patriotic Fund

CHINOOK PATRIOTIC FUND

A meeting of those interested was held in Hewitt's office on Tuesday afternoon to reorganize the Chinook committee for the Patriotic Fund, which, unfortunately, had been allowed to lapse owing to removals and other causes.

J. A. McColl, M.P.P., briefly outlined the noble work which the Patriotic Fund was accomplishing, but there was a great need of a constant supply of funds if this good work was to continue. Chinook, so far, had been behind in helping the fund, and the object of the present meeting was to get together an active and strong committee to take hold of this work. It was something in which all could take a part.

Everyone ought and should do something — either fight or help to keep the dependent ones of those who are at front fighting for us.

A "patriotic bin" is specially reserved at the Farmers' elevator for farmers who wish to donate wheat towards this fund.

The following officers were elected :

W. Leadbetter, president  
A. H. Peck, vice-president  
L. S. Dawson, sec-treas.  
M. J. Hewitt, A. E. Roberts, Robt. McNabb, A. W. Todd, D. Northgraves, J. R. Miller, E. Key Mrs. Isbister, Mrs. Peck, Mrs. Stephenson, were elected a committee.

A meeting of the executive is called for next Saturday evening, at 8 o'clock, in Arm's hall.

### An Old Complaint

#### THAT PROVED FATAL

One of our exchanges relates that the editor had received this question from one of his readers : "What is the matter with my hens ? Every morning I find one of them laid out stiff and cold on the henhouse floor ?"

Next day the answer appeared in the query column :

"Your fowls are suffering from death. It is an old complaint. The only treatment that we can prescribe is burial."

### To Get the Weight

If, when you catch a likely fish, And your weight-guessing fails, And still its size to know you wish Just use the fishes scales.

### TENDERS WANTED

Tenders will be received by the undersigned for the position of Secretary of the Chinook Consolidated School Board, No. 16. Tenders to be in the hands of the undersigned by 6 p.m., Saturday, May 27th, 1916.

M. J. HEWITT  
 Secretary pro tem

**WEST LAND REGULATIONS**

THE sole head of a family or any male over 18 years old may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application must appear in writing at the Dominion, Alberta or Saskatchewan Sub-Agency for the District. Entry fee may now be made at any Dominion Land Agency that is not Sub-Agency, on certain conditions.

Homestead means colonization and cultivation of the land in one of three ways. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In case of a homesteader in good standing may present a quarter section outside his homeestead. Price \$100 per acre.

Details—Six months residence in each of six years after earning homestead patent; also \$5 extra for extra cultivation. Pre-emption rights may be claimed as soon as the homestead is established.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$30 per acre. Details—Must reside six months in each of two years, cultivate 30 acres, and treat a portion as a homestead.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Livestock may be substituted for cultivation under certain conditions.

**M. L. CHAPMAN**  
 Chinook, Alta.

### GENERAL DRAYING

All orders promptly attended to  
 Office: Opp. Crown Lumber yard

W. W. CORY, C.M.G.

Deputy Minister of the Interior

N.B.—Unauthorized publication of this advertisement will not be paid for.—\$400

### Consolidated School Board

#### HOLDS ITS FIRST MEETING

The first meeting of the Chinook consolidated school board met on Saturday. Present Messrs I. W. Deman, Jas. Young, Marris and Bennett.

I. W. Deman, was elected chairman of the Board, and M. J. Hewitt, sec-tres pro tem. Marris, that the Secretary draft a map of the district, and find out where the children are located for the purpose of the van routes.

Bennett, that we hire two extra rigs to convey the children to school and the other rigs already on the route to be accepted.

Young, that Secretary write Inspector Bucanan, Petition and Alberta School Supply Co. to meet the consolidated board at next meeting, Saturday May, 27th.

Bennett, that the board build a four-roomed school for the present, with two or four extra rooms added later to same.

Marris, tender be called for Secretary Treasurer for the consolidated school, the same to be posted up and be handed in not later than Saturday next, May 27, at 6 p.m.

Marris—Bennett, that these minutes be published in the Advance.

Meeting adjourned.

### SPORTS.

#### BASEBALL

There was great excitement in town on Saturday afternoon, when the Youngstown junior team came to town and played a return game with the Chinook juniors. At one time it looked as though the visitors would walk away from the home team, the score standing 9-15 in their favor in the first half of the last innings but two. The home team went back and put the visitors all up in the air by adding 13 runs to their score. In the next two innings the visitors score went up to 25, the home team winning by a score of 32-25.

#### FOOTBALL

Last week the Chinook football team journeyed to Cereal and had game that team. It was a pretty evenly contested game, and for a while it looked as if no goal was going to be made on either side, when Cereal put one over our boys by scoring one goal amid great excitement. During the game Joe Engler of the Chinook team got a bad kick on the cheek. The game Joe Engler of the Chinook team got a bad kick on the cheek.

There will be R. C. Sunday school in the schoolhouse every Sunday at 2 p.m.

#### FOR SALE

One Reg. Suffolk, Punch Stallion, "Rendlesham Boxer," rising 7 years old, weight over 1800 lbs. Terms will be given to responsible parties. Also one Reg. Stallion, "Wawa's Pride," rising 12 years, for sale cheap, as owner has no further use for same. A large number of his get can be seen in this neighborhood.

E. O. DIXON, Chinook

## The Need For Cleaner Seed

At Terminal Elevators at Port Arthur and Fort William, in a Year 100,000 Tons Were Deducted

The need for careful handling of seed grain is apparent when it is noted that in one year the amount of dockage for weeds at the terminal elevators at Port Arthur and Fort William amounted to 100,000 tons. This means that the grain paid the cost of harvesting this crop of weeds, the cost of threshing them, the cost of additional binder twine to hold them in a heap against the grain, the cost of hauling them to the elevator, and the cost of railway transportation to say nothing of the loss incurred by the amount of grain lost and planted, which they robbed the growing grain and the cost of additional cultivation entailed the following year.

In a recent speech the Hon. W. R. Morris, M.P., quoted the annual report in Saskatchewan as to weeds as \$25,000,000. "When the farmers stop to realize the loss of moisture with the consequent loss of crop, due to the weeds, it is a sobering thought that the aggregate loss in Saskatchewan is at least \$25,000,000 per annum," said the provincial minister of agriculture. "It is a sobering thought that more attention will be paid to this serious introd in our annual profits with the view of reducing this ever growing menace to the public welfare."

An Ottawa government report dealing with the 100,000 tons of weed seed docked at the lake terminals at elevators during 1913 says: "The transhipment charges were 10 cents from the western grain fields to the lake front were estimated at \$650,000. Most of the screenings from the terminal elevators have been exported to the United States where they have been re-cleaned and used in various forms for the feeding of live stock. It was further shown that the feeders still have used seed from screenings not properly re-cleaned sometimes contain thousands of vital noxious weed seeds per acre. It is especially desirable to screen out these black seeds by means of a one-fourteenth inch perforated zinc screen."

"These small black seeds are not only useless as feed, but are extremely destructive. When mixed in a mixture in any considerable quantity makes the feed unpalatable for all kinds of stock. Such material should never be fed, as it is liable to introduce diseases, entailing a loss of thousands of dollars. The conclusion is that more attention to the cleaning of grain as it is threshed will save the cost of harvesting the screenings, to the terminal elevators and will leave the grower in possession of much valuable feed, which, if he does not now have, can be had at a flat rate of sale along the stock market."

"In connection with this subject, the following communication has been received from our crop reporting correspondent, Mr. F. J. Bonner, of St. Paul, S.D.: 'Saskatchewan, your pamphlet on grain screenings and particulars on dockage for weed seeds. One hundred thousand tons seem to be the minimum weight to be handled at the terminals, resulting in a loss, but so long as the farmers go on cultivating more land than they can attend to properly, the same will be the case. The price, especially while prices keep high. There is a very large quantity of weed seeds in the grain this year, as the majority of farmers, the fact is, are put in all the grain that possibly could, and the hurry of threshing this year with all the grain already in the bins has prevented it being so cleaned and sorted out to such an extent as the seed weeds will not blow out.'

"The enormous amount of seeds which have come to market leaves one wondering how there is any good seed left. Many farmers carelessly sow grain uncleaned, or only just run it once through an old thresher. No one would take the trouble to clean the grain and above all plow the land properly and bury the seed plants. The 100,000 tons you mentioned would seem disastrous in any other way this can be done. On small areas, cattle turned on the stubble will clean off a great quantity of weeds, but in large areas out in the west none are kept."

**Elevator For Fish**  
To enable migratory fish to pass gill nets as waterfalls and dams which are set up to prevent the Canadian commissioners of fisheries has developed an elevator which is apparently practicable. It has been placed in service at a point on the St. Croix River, N.B., and is operating successfully, according to advertisements.

In part, the device consists of a vertical shaft which rises fast from the surface. Guides, or walls, radiate from both sides of the structure to the opposite ends of the structure, so that fish are led to the cage which is lashed to the end and carried to the top of the shaft, where they are automatically dumped into a sluiceway and discharged into the river. The up-and-down elevator, is housed in a pit by means of a counterpoise tank which is periodically filled with water from a supply reservoir surrounding the town. The cage hangs cantilevered out to pass over pulleys at the top of the shaft.

The fish compartment is provided with a door, one at each end. When it is at the bottom of the shaft beneath the water one of these gates is raised to permit fish to enter. On the other hand, an auxiliary gate is closed to prevent fish from swimming around to the back side of the guides or into the space normally occupied by the carrier, when the latter ascends.—*Popular Mechanics Magazine*.

Slim Summer Hotel Boarder—Boarder—One who does, one at a time. When it is at the bottom of the shaft beneath the water one of these gates is raised to permit fish to enter. On the other hand, an auxiliary gate is closed to prevent fish from swimming around to the back side of the guides or into the space normally occupied by the carrier, when the latter ascends.—*Popular Mechanics Magazine*.

## Von Tripitz Retirement Retirement of German Naval Officer One of the Sensations of the War

The passing of Grand Admiral Alfred von Tripitz, Tirpitz the Eternal, as he was called, must be one of the sensations of the war in Germany. He was a man who had been once solicited in behalf of a young officer who von Tripitz had disciplined. "You'll have to get along with him as you can," said the sympathetic admiral, "I am not a strict disciplinarian." The story illustrates the importance of the grand admiral as a factor in the imperial policy no less than the emperor himself. He was a man who was created and maintained the modern navy of Germany, not William II. To the man in the street Von Tripitz is known chiefly as the advocate of "rightfulness" on the sea. The nobility has given him a bad name, which doubtless he richly deserves.

To those who are familiar with his remarkable career, the retirement of Von Tripitz is the fall of a mighty pillar of the empire. He was a great naval affairs man, a statesman in diplomacy. While the duel in dreadnought building with England began the German people were not interested in the navy. It was necessary to find a way to educate them which he did with a publicity bureau like the like of which has never been known in any other country. He did not only win the duel. To get the Reich to adopt a naval programme that contemplated rivalry with England was an almost superhuman task, and then to win the votes of the upper house in lean as well as fat years, with the army clamoring for increased and new equipment. Comparable to the naval act of 1900 is the declaration that Germany must have a fleet of such strength that a war even against the mightiest naval power would involve such risks as to threaten the supremacy of that power.—*New York Sun*.

## Varieties of Alfalfa

Some Alfalfa Experiments Made In North Dakota

Twenty-two different kinds of alfalfa have been experimented with in the high plains of the western part of North Dakota. These included strains from Europe, Asia and South America. The experiments were conducted during the winter of 1906-7, one of the severest the western States has ever experienced.

A committee of the predominantly low temperature wheat-growing districts of the winter wheat belt, including the grain elevators and the terminal elevators, and the gradual approach of cold weather hardened the tissues of the plants, enforcing grain and perfect dormancy. The results of the experiments in December and remained until nearly the end of March. To these factors and the gradual return of spring was due the fact that a percentage of the strains came safely through the winter.

The important point, however, is that grain alfalfa and two Turkish strains survived to possess whatever, and the Ontario variegated originally came from the same source, near the borders of Germany and Russia, and are identical in origin. The results of both alike, varied and added to the variety of strains which the seed could be used.

"In connection with this subject, the following communication has been received from our crop reporting correspondent, Mr. F. J. Bonner, of St. Paul, S.D.: 'Is there any good seed left? Many farmers carelessly sow grain uncleaned, or only just run it once through an old thresher. No one would take the trouble to clean the grain and above all plow the land properly and bury the seed plants. The 100,000 tons you mentioned would seem disastrous in any other way this can be done. On small areas, cattle turned on the stubble will clean off a great quantity of weeds, but in large areas out in the west none are kept.'

**Unattached Officers  
May Become Privates**

Opportunity to Officers Without Commissions to Prove Their Loyalty

Unattached officers, with no prospect of attachment, will have an opportunity for service. This opportunity may lower their pride, but will heighten their loyalty. In effect, a regulation will be issued, authorizing officers of the various divisions taking unattached officers to enlist as privates. Special consideration will be extended, and they will be promised every opportunity to earn the rank of private.

"They may be attached to a unit of the corps of engineers, or to a

unit of the cavalry, or to a unit of the

infantry, or to a unit of the

artillery, or to a unit of the

signals, or to a unit of the

The suggestion that U.S. insist  
on the freedom of the seas makes  
it pertinent to inquire if Germany  
would be willing to have Uncle  
Sam general overseer.

No matter whether your road-  
ster is a Ford or not, everybody  
is watching Ford not as a presi-  
dential possibility but as a pos-  
sible public benefactor on the  
'two-cent' automobile fuel.

### R. M. of Sounding Creek, No. 273

### NOTICE

TO the resident ratepayers of R.  
M. of Sounding Creek, No. 273  
Kindly take notice of the following  
amendment to the Act regarding  
Hail Insurance, of which the follow-  
ing is a synopsis :

Any resident ratepayer of the Municipality  
may have his unpatented  
homestead withdrawn from the  
homestead withdrawal from the operation  
of the Hail Insurance Act, providing  
there are less than twenty-five acres of cultivated land on the  
same, and application for doing this is made  
to the Secretary-Treasurer of the Municipality before  
June 1st in each year.

Applications for doing this should be  
made in the following form, addressed to me :

I hereby apply for the withdrawal  
of the following land from the Hail  
Insurance scheme, qrt., sec., tp.,  
range, on the ground that it is an un-  
patented homestead, pre-emption, or  
purchased homestead, and there are  
less than 25 acres of cultivated land on  
the same.

These applications must reach me  
before June 1st.

R. N. MANGLES,  
Sec.-Treas.  
Youngstown
